### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Waugh on March 29, 2004.

2. The application has been amended as follows:

**IN THE SPECIFICATION:**

On page 16, after line 10, delete the paragraph that begins with "Visible light is usually..."

**IN THE CLAIMS:**

**Cancel Claim 33**

**Please add the following new claim 41:**

--41. The liquid dishwashing detergent product according to claim 22, wherein the polymeric coating and the liquid automatic dishwashing composition comprise observed color combinations of blue:blue, blue:white, green:green, green:white, or green:yellow.--

Art Unit: 1751

3. The following is an examiner's statement of reasons for allowance:

Aronson et al, WO 93/22417, discloses a liquid detergent composition that contains a capsule comprising a detergent sensitive ingredient (see abstract & page 5, line 20-page 6, line 11). It is further taught by Aronson et al that the capsule polymer is composed of polyvinyl alcohol and methyl cellulose (see page 17, line 17-page 18, line 36). Specifically, note the example on page 32, which discloses a liquid detergent composition at a pH between 5-12.5, which comprises surfactants, sodium citrate, sodium borate, 0.1-10% by weight of a polymeric capsule, water, and adjunct ingredients, and also note the Examples in Table 1, which disclose liquid detergent compositions that contain polyvinyl alcohol and methyl cellulose as the polymeric capsule. However, patentee differs from applicant in that Aronson et al does not teach or suggest in general a liquid detergent composition that contains the specific color combinations required in the instant claims. Furthermore, the examiner makes of record that the recited color combinations in the instant claims are definite in view of applicant's remarks filed January 6, 2004.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1751
